

Napkin Pixie Boot

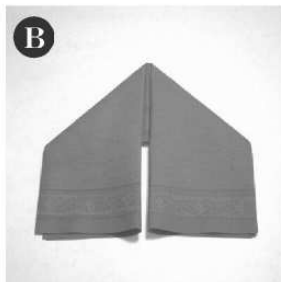

You will need a paper napkin at least 40cm square. A fabric napkin makes an excellent boot

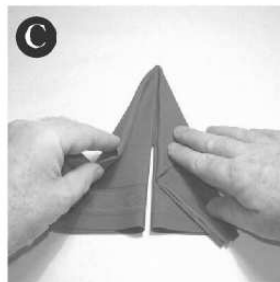

Fold an open napkin in half then in half again in the same direction. Ensure the open side is facing you.

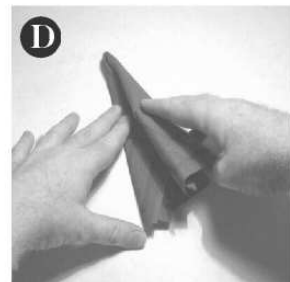

A Fold each side towards you down the centre line.

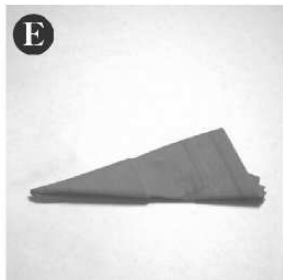

B Leave a small gap as indicated.

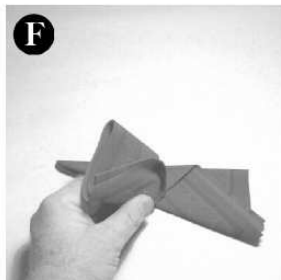

C Fold each side down the centre line again.

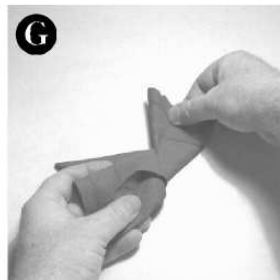

D Fold the napkin in half down its centre.

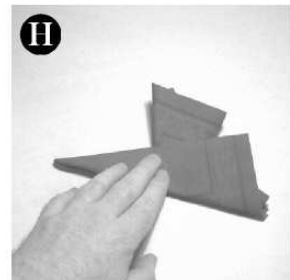

E Place with closed side at the top and open side facing you.

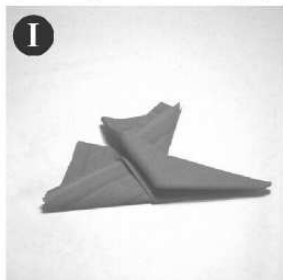

F Lift top layer out of the way to expose bottom layer.

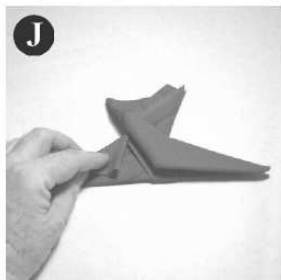

G Fold bottom layer up inside, avoid crumpling!

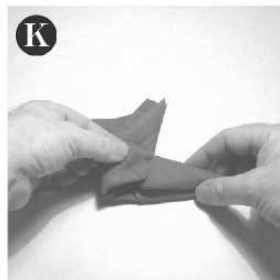

H Replace the top layer and turn napkin over.

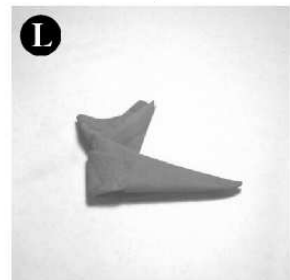

I Top layer now becomes the bottom layer.

J Fold the top of the layer over.

K Tuck the now narrower flap into this pocket.

L Layer fully tucked into the pocket.

Find the middle of the layers and turn them back (like a sleeve). Flatten the toe and open the sole out a little to add depth.
