Marquee Exhibition & Workshop

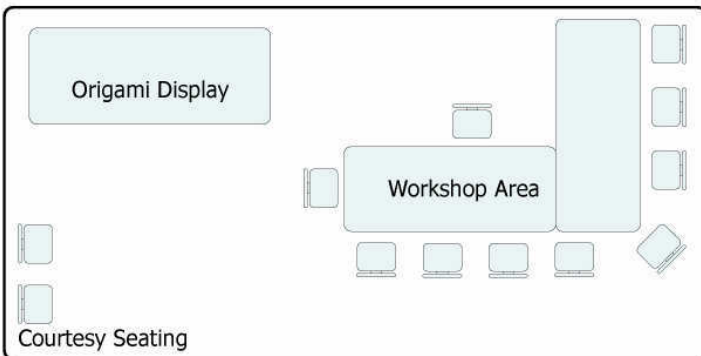

A unique and unusual attraction for your fete or festival

Origami is an activity in which the whole family can participate, and are actively encouraged to do so.

A complete and self contained workshop, erected and dismantled on the day by our own team. All that is required is an area of flat ground to accommodate the 6 x 3 mtr marquee. All tables and chairs are supplied and even lighting if required on provision of a suitable 230v supply. We are Public Liability Insured and Enhanced CRB cleared.

A comprehensive display of award winning origami is on show on the display stand and hung within the marquee.

Marquee size 6mtrs x 3mtrs

Open Frontage

Stephen regularly gives lectures, demonstrations and workshops to groups, schools and organisations in the Lancashire area.

His regular clients include several local authorities and councils as well as formal organisations such as the Women's Institute, the Townswomen's Guild and the Young Farmers organisation. His aim is to use Origami in a positive and constructive way.

When the activities are in full swing it is very rarely quiet. Everyone who wants to have a go gets an opportunity using the drop in method.

With a turn around of people every seven to ten minutes or so, participants need not wait too long and enjoy watching.

We are positive about people with disabilities and ensure anyone with mobility or assistance equipment are accommodated in the workshop. Folding guides are available for people with restricted hand/arm movement and assistance dogs are welcomed and pampered!
